

## Things you should know about Civic Amenity Sites

Civic Amenity Sites (CAS, Polish: PSZOK), which are located in the area of the City of Warsaw, accept segregated municipal waste from your households which is intended for disposal or recovery free of charge.

**YES:** used batteries, accumulators, pressurised aerosol containers, paint cans, concrete, brick rubble, ceramics, tiles, car tyres, caustic substances. Medications past their expiry date and mercury-in-glass thermometers, waste electrical and electronic equipment (e.g. washing machines, television set, driers, fridges), bulky waste

**NO:** waste other than municipal waste, including materials containing asbestos, tar paper and construction polystyrene, waste in damaged packaging causing leakage

## What if you can't deliver dangerous waste to CAS? You can dispose of them in your district!

Mobile Civic Amenity Sites (MCAS, Polish: MPSZOK), which are specially adapted and labelled vehicles, accept dangerous municipal waste free of charge, operating on the basis of kerbside collection round system.

**YES:** paint, paint packaging, oil packaging, other than cooking oil, detergent packaging, crop protection product packaging, pressurised aerosol containers, solvents, fluorescent lamps and tubes, energy-saving lamps, mercury-in-glass thermometers, ink, printer toners, glue, glue packaging, detergents, batteries, accumulators, small waste electrical and electronic equipment (with dimensions not exceeding 25 cm, e.g. kettles, hair dryers, loudspeakers), as well as edible oil and fats

**NO:** construction and demolition waste, large waste electrical and electronic equipment, bulky waste, biodegradable waste, medications

For information on waste accepted by CAS and MCAS, and on schedules and stopover locations of MCAS vehicles go to [warszawa19115.pl](http://warszawa19115.pl)  
(formerly [czysta.um.warszawa.pl](http://czysta.um.warszawa.pl))

## Try to prevent waste generation and segregate your waste in line with the following set of simple rules

- ▶ Place your waste only in properly labelled containers.
- ▶ Try to minimise the volume of waste: Remember to crush plastic bottles and fold cardboard packaging.
- ▶ Throw away empty packaging without product residue.
- ▶ Bring medications past their expiry date and thermometers to selected pharmacies or CAS facilities.
- ▶ Take dangerous municipal waste to CAS or MCAS facilities - it cannot be placed in segregated waste containers or left at bin shelters.

## Remember!!!

1 Prevent waste generation

2 Reuse

3 Sort properly

## How to segregate municipal waste in Warsaw
